Apollo Led Sconce
APO-WM-WS-PN-IN

Apollo Led Sconce

As innovative as it is elegant; the Apollo's striking stem houses an LED "downlight" at the end of the stem and a medium based light to brighten the room. The hidden light sensor turns the LED on when the room becomes dark. In the bathroom, the light will brighten the counter top and aid in orientation in the middle of the night. If not located over a counter then it will subtly wash the wall in a soft light when the room grows dark.

The Apollo features an LED night light

Dimensions			Finishes / Code	Diffuser / Code	Mounting/ Code	Lamping / Voltage

Jewel Drum Pendants

Green Leaf
DRT24-WC-GF-WH-IN

Salmon
DRT24-WC-SA-WH-IN

The Jewel drum pendants feature striking designs by Gibb Brownlie and Michael Lamar.

The drums are available in standard sizes of 16, 24, and 36 inches. Custom sizes up to 60 inches also available. The designs are reproduced from the original, hand-painted textiles that radiate light through their sparse yet playful patterns. The new drums, offer saturated colors and sinuous, organic shapes.

Brownlie and Lamar, graduates of the Rhode Island School of Design, both spent time teaching at the institution, helping new generations of artists and designers learn and refine their talents.
